

# USED MACHINES

## FIRST CLASS. SECOND HAND.

Long-lasting, robust, high performance. An EREMA machine continues to give you good performance even after many years of service. UMAC offers you these and other used recycling machines and components with a particularly attractive price-performance ratio. Take advantage of the extensive know-how of our expert team and the fast availability of the machines. **UMAC. Reliable and competent. Your specialist for used machines!**

## BENEFITS FOR BUYERS

### **Best price-performance ratio**

### **Machine available quickly and productive quickly**

Refurbishing with **original EREMA spare parts** for more performance, service life and stability

### **Professional commissioning**

**Your additional bonus:** our knowledge of the individual track record of your future used machine

**Close collaboration with the EREMA Group:** EREMA, 3S and PURE LOOP

**Your assurance: our expert know-how**  
Our team consists of long-serving EREMA employees who have extensive recycling machine experience including expertise in terms of process engineering, service, spare parts and commissioning.

## BENEFITS FOR SELLERS

### **A fair offer:**

Thanks to on-site evaluation and our knowledge of technology and the market we promise a fair offer

### **Sell your machine easily, quickly and in an uncomplicated way:**

You do not have to handle anything, we take care of everything for you. We organise disassembly, collection and transport.
